Business/Materials

- Computers or tablets with internet access
 - Projector or screen
 - YouTube video clip (under 10 seconds) about environmental issues
 - Padlet online board for brainstorming vocabulary
 - Google Docs for collaborative writing
 - Printed reading passage and worksheet
 - Notebook, pen/pencil
-

Lesson Objectives

- Students will read and comprehend a short text about environmental issues.
 - Students will identify and use key vocabulary related to the environment.
 - Students will collaboratively brainstorm descriptive words using Padlet.
 - Students will write a short opinion paragraph using Google Docs.
-

Warm-up and Objective Discussion

- Show a brief YouTube video clip depicting pollution (less than 10 seconds).
 - Ask students what problems they see and discuss briefly.
 - Introduce lesson objectives and explain how technology will be used.
-

Instruct and Model

- Reading: Teacher reads aloud the environmental passage and explains new vocabulary.

- Writing: Teacher models writing an opinion paragraph on the board, demonstrating vocabulary use and linking words.

- ☒ R (Reading)
- ☒ W (Writing)
- ☐ L (Listening)
- ☐ S (Speaking)

Guided Practice

- Students access Padlet to collaboratively brainstorm vocabulary related to environmental issues.
- In pairs, students discuss and select words for their writing.
- Teacher monitors and provides feedback.

- ☐ R
- ☒ W
- ☐ L
- ☒ S

Independent Practice

- Students individually write a short opinion paragraph on Google Docs using vocabulary from Padlet.
- Teacher assists as needed.

- ☐ R
- ☒ W
- ☐ L
- ☐ S

Assessment

- Volunteers read their paragraphs aloud.
- Teacher provides oral feedback focusing on vocabulary and clarity.
- Optionally, collect Google Docs for written feedback.

- ☒ R
- ☒ W
- ☐ L
- ☒ S

This completed template includes all required components and clearly labels the skills practiced in each phase. You can copy this into the official lesson plan template document, add your micro lesson video link, and upload it as required.
